*Detailed Action*

*Response to Amendment*

1. Applicant's arguments filed on 6/28/2005 regarding claims 1-21 have been fully considered and are currently pending. Claims 11-21 have been newly added by the Applicant.

***EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE***

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing an enclosure services processor card arranged to selectively split a fibre-channel arbitrated-loop (FC-AL) of devices into two split loops, including the unique steps of:

“said card being adapted to plug into a backplane for a rack enclosure and including a first switch operatively connected to a hub for said FC-AL, said hub comprising second and third switches operatively controlled by said first switch,

said second and third switches being disposed between respective port bypass circuits at which said loop is to be split so that in a first state said second and third switches connect said devices in a single loop and in a second state said second and third switches divide said devices into two split loops,

said single loop of the first-state having a first bandwidth,

said two split loops of the second state having a second bandwidth, second-bandwidth being twice that of the first bandwidth.”

Art Unit: 2664

The closest prior art, Hahn et al. (US Patent 5,991,891), discloses a Fiber-Channel Arbitrated Loop (FC-AL) system that comprises a loop coherency circuit/hub which splits devices into a primary loop and a secondary loop. However, Hahn fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
